1 art supply box – (Big enough to fit all art supplies)

1 - 1 subject notebooks

500 index cards

4 separate folders

2 packages dry erase markers (black or blue)

1 dry erase eraser

2 highlighters

Box of Latex-Free Bandaids

Boxes of tissues

Packages of Baby Wipes or Wet Ones

Packages of Zip Lock Baggies

Rolls of paper towels

Dear New 4th Grader:

For summer homework, <u>PLEASE PRACTICE YOUR MATH FACTS!!</u>
We expect every fourth grader to come back from summer vacation and know all of his/her multiplication facts including the twelves table. We are attaching 100 Multiplication, Division, Addition & Subtraction Facts Drill papers. These should be copied at your house and practiced as OFTEN AS YOU POSSIBLY CAN!! You can also print them off of <u>MathDrills.com</u>. During August we would request that you try to complete each page once a day in order to keep the facts fresh in your minds when you return to school. If you know that you are having difficulty with one or more particular facts, please take extra time to study these. We will begin timed drills on all of these in September.

In addition to the math facts practice, you need to read one of the following books: Charlie and the Chocolate Factory by Roald Dahl The BFG by Roald Dahl, Tales of the Fourth Grade Nothing by Judy Blume or Otherwise Known as Sheila the Great by Judy Blume. After reading the story, choose one of the projects described below to complete. Bring this project to school on the second day of class so that we can share the projects with each other. Project Choices: Be sure to include the title of the book, the author, and your name on your project.

• Book Cube

- Cover a small box, about 5 inches deep, with paper. On each side of the box, draw pictures of different scenes in the story. Write a caption to go along with your pictures.

• Mobile

- Make a mobile with pictures that you've drawn, or items that tell about the story, yarn, string, or ribbon, and a plastic coat hanger. The pictures should show characters or things that happened in the story.

Diorama

- Inside of a shoebox, make a little 3-dimensional scene that shows something about the story. Make people, trees, furniture, and other props to recreate the scene. BE SURE TO DECORATE THE OUTSIDE OF THE BOX.

Collage

- On a big piece of paper or poster board, glue pictures of things that tell about the story. You can also add real things like leaves, rope, twigs, and fabric. Completely cover the page, but leave room for the title and author.

Memory Box

Collect at least 5 items that represent events that took place in the story you read, or things that tell about the characters of the story. Put them in a box that you have decorated to fit the story. BE SURE TO DECORATE THE OUTSIDE OF THE BOX.

Remember BE CREATIVE and HAVE FUN!!! Love, Mrs. A & Mrs. S.

Adding With Some Regrouping (A)

Name: Date: Score: /100

Calculate each sum.

Subtraction Facts to 18 (A)

Calculate each difference.
